RECOMENDATIONS FOR EMPLOYERS TO TAKE NOW

Note: This information is not intended to be used as medical advice. Please contact your local health professional or visit the [CDC website](#) for further information.

Actively encourage sick employees to stay home:

Employees who have symptoms of acute respiratory illness are recommended to stay home and not come to work until they are free of fever (100.4° F [37.8° C] or greater using an oral thermometer), signs of a fever, and any other symptoms for at least 24 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants).

Employees should notify their supervisor and stay home if they are sick.

Ensure that your sick leave policies are flexible and consistent with public health guidance and that employees are aware of these policies.

Talk with companies that provide your business with contract or temporary employees about the importance of sick employees staying home and encourage them to develop non-punitive leave policies.

Do not require a healthcare provider's note for employees who are sick with acute respiratory illness to validate their illness or to return to work, as healthcare provider offices and medical facilities may be extremely busy and not able to provide such documentation in a timely way.

Employers should maintain flexible policies that permit employees to stay home to care for a sick family member. Employers should be aware that more employees may need to stay at home to care for sick children or other sick family members than is usual.

Separate sick employees:

CDC recommends that employees who appear to have acute respiratory illness symptoms (i.e. cough, shortness of breath) upon arrival to work or become sick during the day should be separated from other employees and be sent home immediately. Sick employees should cover their noses and mouths with a tissue when coughing or sneezing (or an elbow or shoulder if no tissue is available).

Emphasize staying home when sick, respiratory etiquette and hand hygiene by all employees:

Place posters that encourage [staying home when sick, cough and sneeze etiquette](#), and [hand hygiene](#) at the entrance to your workplace and in other workplace areas where they are likely to be seen.

Provide tissues and no-touch disposal receptacles for use by employees.

Instruct employees to clean their hands often with an alcohol-based hand sanitizer that contains at least 60-95% alcohol, or wash their hands with soap and water for at least 20 seconds. Soap and water should be used preferentially if hands are visibly dirty.

Provide soap and water and alcohol-based hand rubs in the workplace. Ensure that adequate supplies are maintained. Place hand rubs in multiple locations or in conference rooms to encourage hand hygiene. Visit the [coughing and sneezing etiquette](#) and [clean hands webpage](#) for more information.

Perform routine environmental cleaning:

Routinely clean all frequently touched surfaces in the workplace, such as workstations, countertops, and doorknobs. Use the cleaning agents that are usually used in these areas and follow the directions on the label.

No additional disinfection beyond routine cleaning is recommended at this time. Provide disposable wipes so that commonly used surfaces (for example, doorknobs, keyboards, remote controls, desks) can be wiped down by employees before each use.

Advise employees before traveling to take certain steps:

Check the [CDC's Traveler's Health Notices](#) for the latest guidance and recommendations for each country to which you will travel. Specific travel information for travelers going to and returning from China, and information for aircrew, can be found at on the [CDC website](#). Advise employees to check themselves for symptoms of [acute respiratory illness](#) before starting travel and notify their supervisor and stay home if they are sick.

Ensure employees who become sick while traveling or on temporary assignment understand that they should notify their supervisor and should promptly call a healthcare provider for advice if needed.

If outside the United States, sick employees should follow your company's policy for obtaining medical care or contact a healthcare provider or overseas medical assistance company to assist them with finding an appropriate healthcare provider in that country. A U.S. consular officer can help locate healthcare services. However, U.S. embassies, consulates, and military facilities do not have the legal authority, capability, and resources to evacuate or give medicines, vaccines, or medical care to private U.S. citizens overseas.

WORK SHARING PROGRAM

This EDD program allows employers to seek an alternative to layoffs - retaining their trained employees by reducing their hours and wages that can be partially offset with UI benefits. Visit the [Work Sharing Program](#) to learn more about its benefits for employers and employees, and how to apply.

UNEMPLOYMENT BENEFITS

The CARES Act includes a specific section allowing nonprofits to be reimbursed for half of the costs incurred through the end of 2020 to pay unemployment benefits.

If your employees have lost hours or wages due to the impact of COVID-19, we encourage you to file for unemployment benefits. The CARES Act increases the premium over the usual rates of unemployment insurance and extends the length of unemployment benefit terms. The Act provides an additional \$600 increase over an applicant's approved weekly benefit through July 31, 2020. Additionally, unemployment benefits have been extended for a period of 39 weeks. Temporary employees are eligible as long as they have worked at least 30 days.

Apply for unemployment [here](#).

Nonprofits fall into three categories for UI:

1. "Experience Rating" – nonprofits pay into a UI account just like other businesses, through payroll taxes incurred on each employee paycheck. When a former

employee files an unemployment claim, those funds come from the UI account you have paid into.

2. "Reimbursable Method" – nonprofits do not pay into a UI account. When a former employee files an unemployment claim, the organization must reimburse the state for the full cost of unemployment benefits paid to the former employee.
3. "Special Exclusion Entities" – nonprofits that are exempt from UI, typically religious and educational organizations. For guidelines on who is excluded from required UI and SDI, click [here](#). For more information visit the [Department of Labor](#).

To find out which method your organization is using:

1. Ask your tax preparer, CPA and/or office manager
2. Your organization would have filed these two forms:
 - a. [Selection of financing method by a nonprofit organization](#)
 - b. [Nonprofit employers registration and update form](#)
3. If you see "CA SDI" on employee paystubs, you are using the "Experience Rating" method

If your organization uses the 'experience rating method' for UI and SDI, your employees can file for unemployment, claims will come out of your organization's UI account, and your UI rate may increase next year based on the number of claims from your organization.

If your organization uses the 'reimbursable method' for UI and SDI, your employees can file for unemployment, and your organization will be expected to reimburse the State for the full cost of the benefits, not including the additional \$600 increase included in the CARES act, which is paid for by the State and reimbursed by the federal government.

If your organization is excluded from UI and SDI, your employees are only eligible for Unemployment if the President declares a major disaster. Currently, California, New York and Washington have been declared a 'major disaster,' so employees of these excluded organizations should now be eligible to file for COVID-related unemployment.

Our understanding is that, regardless of your UI method, all former nonprofits employees are eligible for UI and we are encouraging your former employees to apply for UI benefits.

PAID FAMILY LEAVE EMPLOYER REQUIREMENTS

The Families First Coronavirus Response Act (FFCRA or Act) requires certain employers to provide their employees with paid sick leave or expanded family and medical leave for reasons related to COVID-19 beginning April 1, 2020 through December 31, 2020. For more information visit the Department of Labor's [website](#). More questions?

Beginning April 1, 2020, nonprofit organizations with fewer than 500 employees are required to pay employees:

1. Their full wage, (up to \$511/day or \$5,110 total) if the employee is:
 - a. Unable to work because of a Federal, State, or local COVID-19 quarantine or isolation order;
 - b. Advised by a health care provider to self-quarantine due to concerns related to COVID-19;
 - c. Experiencing symptoms of COVID-19 and are seeking medical diagnosis

RECOMENDATIONS FOR EMPLOYERS TO TAKE NOW

Note: This information is not intended to be used as medical advice. Please contact your local health professional or visit the [CDC website](#) for further information.

Actively encourage sick employees to stay home:

Employees who have symptoms of acute respiratory illness are recommended to stay home and not come to work until they are free of fever (100.4° F [37.8° C] or greater using an oral thermometer), signs of a fever, and any other symptoms for at least 24 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants).

Employees should notify their supervisor and stay home if they are sick.

Ensure that your sick leave policies are flexible and consistent with public health guidance and that employees are aware of these policies.

Talk with companies that provide your business with contract or temporary employees about the importance of sick employees staying home and encourage them to develop non-punitive leave policies.

Do not require a healthcare provider's note for employees who are sick with acute respiratory illness to validate their illness or to return to work, as healthcare provider offices and medical facilities may be extremely busy and not able to provide such documentation in a timely way.

Employers should maintain flexible policies that permit employees to stay home to care for a sick family member. Employers should be aware that more employees may need to stay at home to care for sick children or other sick family members than is usual.

Separate sick employees:

CDC recommends that employees who appear to have acute respiratory illness symptoms (i.e. cough, shortness of breath) upon arrival to work or become sick during the day should be separated from other employees and be sent home immediately. Sick employees should cover their noses and mouths with a tissue when coughing or sneezing (or an elbow or shoulder if no tissue is available).

Emphasize staying home when sick, respiratory etiquette and hand hygiene by all employees:

Place posters that encourage [staying home when sick, cough and sneeze etiquette](#), and [hand hygiene](#) at the entrance to your workplace and in other workplace areas where they are likely to be seen.

Provide tissues and no-touch disposal receptacles for use by employees.

Instruct employees to clean their hands often with an alcohol-based hand sanitizer that contains at least 60-95% alcohol, or wash their hands with soap and water for at least 20 seconds. Soap and water should be used preferentially if hands are visibly dirty.

Provide soap and water and alcohol-based hand rubs in the workplace. Ensure that adequate supplies are maintained. Place hand rubs in multiple locations or in conference rooms to encourage hand hygiene. Visit the [coughing and sneezing etiquette](#) and [clean hands webpage](#) for more information.

Perform routine environmental cleaning:

Routinely clean all frequently touched surfaces in the workplace, such as workstations, countertops, and doorknobs. Use the cleaning agents that are usually used in these areas and follow the directions on the label.

No additional disinfection beyond routine cleaning is recommended at this time. Provide disposable wipes so that commonly used surfaces (for example, doorknobs, keyboards, remote controls, desks) can be wiped down by employees before each use.

Advise employees before traveling to take certain steps:

Check the [CDC's Traveler's Health Notices](#) for the latest guidance and recommendations for each country to which you will travel. Specific travel information for travelers going to and returning from China, and information for aircrew, can be found at on the [CDC website](#). Advise

Employees to check themselves for symptoms of [acute respiratory illness](#) before starting travel and notify their supervisor and stay home if they are sick.

Ensure employees who become sick while traveling or on temporary assignment understand that they should notify their supervisor and should promptly call a healthcare provider for advice if needed.

If outside the United States, sick employees should follow your company's policy for obtaining medical care or contact a healthcare provider or overseas medical assistance company to assist them with finding an appropriate healthcare provider in that country. A U.S. consular officer can help locate healthcare services. However, U.S. embassies, consulates, and military facilities do not have the legal authority, capability, and resources to evacuate or give medicines, vaccines, or medical care to private U.S. citizens overseas.

*All counties within the State of California;
the contiguous Arizona counties of: **La Paz, Mohave & Yuma**;
the contiguous Nevada counties of: **Clark, Douglas, Esmeralda, Lyon, Mineral, Nye & Washoe**;
and the contiguous Oregon counties of: **Curry, Jackson, Josephine, Klamath & Lake***

Application Filing Deadline: December 16, 2020

Disaster Loan Assistance Available:

Economic Injury Disaster Loans (EIDLs) – Working capital loans to help small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and most private, non-profit organizations of all sizes meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster. These loans are intended to assist through the disaster recovery period.

Credit Requirements:

- Credit History – Applicants must have a credit history acceptable to SBA.
- Repayment – Applicants must show the ability to repay the loan.
- Collateral – Collateral is required for all EIDL loans over \$25,000. SBA takes real estate as collateral when it is available. SBA will not decline a loan for lack of collateral, but SBA will require the borrower to pledge collateral that is available.

Interest Rates:

The interest rate is determined by formulas set by law and is fixed for the life of the loan. The maximum interest rate for this disaster is 3.75 percent.

Loan Terms:

The law authorizes loan terms up to a maximum of 30 years. SBA will determine an appropriate installment payment based on the financial condition of each borrower, which in turn will determine the loan term.

Loan Amount Limit:

The law limits EIDLs to \$2,000,000 for alleviating economic injury caused by the disaster. The actual amount of each loan is limited to the economic injury determined by SBA, less business interruption insurance and other recoveries up to the administrative lending limit. SBA also considers potential contributions that are available from the business and/or its owner(s) or affiliates. If a business is a major source of employment, SBA has the authority to waive the \$2,000,000 statutory limit.

Loan Eligibility Restrictions:

Noncompliance – Applicants who have not complied with the terms of previous SBA loans may not be eligible. This includes borrowers who did not maintain required flood insurance and/or hazard insurance on previous SBA loans.

Note: Loan applicants should check with agencies / organizations administering any grant or other assistance program under this declaration to determine how an approval of SBA disaster loan might affect their eligibility.

Refinancing:

Economic injury disaster loans cannot be used to refinance long term debts.

Insurance Requirements:

To protect each borrower and the Agency, SBA may require you to obtain and maintain appropriate insurance. By law, borrowers whose damaged or collateral property is located in a special flood hazard area must purchase and maintain flood insurance. SBA requires that flood insurance coverage be the lesser of 1) the total of the disaster loan, 2) the insurable value of the property, or 3) the maximum insurance available.

Applicants may apply online, receive additional disaster assistance information and download applications at <https://disasterloan.sba.gov/ela>.
